Medical Library

CURRENT LIST of MEDICAL LITERATURE

Vol. 7 Nov. 17, 1944 No. 20

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

Privately published under the auspices of the
FRIENDS OF THE ARMY MEDICAL LIBRARY
AND THE
MEDICAL LIBRARY ASSOCIATION, INC.
Washington, D. C.

Printed in the U.S.A.

1. Anatomy; Histology

Tr. Am. Micr. Soc., 1944, 63:

MACLENNAN, R. F. The pulsatory cycle of the contractile canal in the ciliate Haptophrya. 187-98.

EDGAR, S. A., HERRICK, C. A., & FRASER, L. A. Glycogen in the life cycle of the coccidium, Eimeria tenella. 199-202.

MARTIN, W. E. Studies on trematodes of Woods Hole; additional observations upon Cercaria loossi Stunkard developing in an annelid. 237-43.

SEIBERT, H. C. Notes on the genus Diplotriaena with the description of a new species. 244-53.

NOBLE, G. A., & NOBLE, E. R. On the histology of frog skin glands. 254-63.

5. Bacteriology; Parasitology

J. Bact., Balt., 1944, 48: (Sept.)

EVANS, A. C. Studies on hemolytic streptococci; distinguishing characters of the lactose-negative species of Lancefield's groups A and C. 263-5.

_____. Streptococcus equisimilis. 267-84.

GAINEY, P. L. Measuring the growth of Azotobacter. 285-94.

BROOKS, R. F., & HUCKER, G. J. A study of certain members of the genus Corynebacterium. 295-312.

DUBIN, I. N., & SHARP, D. G. Comparison of the morphology of Bacillus megatherium with light and electron microscopy. 313-29, incl. 3 pl.

HERRICK, J. A., & KEMPF, J. E. A study of the fungistatic and fungicidal properties and of the toxicity for mice of sodium azide. 331-6.

MAYER, R. L. A yellow pigment formed from p-aminobenzoic acid by Mycobacterium tuberculosis var. hominis. 337-45.

PETRIK, F. G. Atypical acid-fast microorganisms; nucleic acid fraction. 347-50.

BORMAN, E. K., STUART, C. A., & WHEELER, K. M. Taxonomy of the family Enterobacteriaceae. 351-67.

PEARSON, H. E. Distribution of influenza virus type A in infected eggs and the survival of virus under certain conditions of storage. 369-78.

PONO, J. Comparative antigenicity of rabies virus preparations inactivated by various methods. 379.

WARD, W. E. Types of Eberthella typhosa isolated in Los Angeles County. 379.

SALLE, A. J. Effect of oxidation-reduction systems on germicidal activity. 379.

HOYT, R. E., & LEVINE, M. G. Topical use of crude penicillin. 380.

LEVINE, M. G., & HOYT, R. E. Stability of penicillin preparations. 380.

HUNGATE, R. E. Cellulose-digesting bacteria in Amitermes. 380.

HABERMAN, S., & HILL, J. M. The occurrence and inheritance of the Rh and Hr factors in human blood. 381.

POLLARD, M., & AUGUSTSON, G. F. Preliminary report on the serological and entomological survey of murine typhus. 381.

BADER, M. N., & ANIGSTEIN, L. Further studies on Bullis fever. 381.

BEAL, G. A., & WORLEY, G., JR. Effect of sodium azide on the catalase activity of Brucella abortus. 382.

FULTON, M., & CURTIS, S. F. Observations on strains of the genus Eberthella. 382.

PIKE, R. M. Human and animal types of group C streptococci. 382.

LANKFORD, L. L., & KRINGLE, P. Observations on selective bacteriostatic agents for culture diagnosis of gonorrhea. 383.

J. mikrob., Moskva, 1944, No. 6

NAUMOVA, E. K. /Microbe antagonists of diphtheria bacilli/ 3-10.

SUCHKOVA, K. I. /The typing of diphtheria bacilli at Gorky/ 10-3.

LIAMPERT, I., & STRIZHAK, N. /The use of tellurium for diagnosis of diphtheria/ 13.

GILDIN, S. R., VOILOSHNIKOVA, V. V., & GRIGORIEVA, A. I. /Natural immunity to diphtheria in remote regions of Uzbekistan/ 14-7.

LEBEDEVA, M. N., & GOLDFARB, D. M. /Chemotherapy of diphtheria; experimental toxinemia in white mice/ 17-21.

KAMENECKY, I. I., & DUBROVSKY, M. B. /The use of tartaric acid in cases of diphtheria and in healthy carriers/ 21-3.

ZHELIABOVSKAIA, E. I. /Bacteriophage therapy of toxic diphtheria/ 23-7.

GOLIKOVA, T., & OSIPOVA, E. /The effect of freezing on the antigenous and immunogenous properties of diphtheria anatoxin/ 27.

FELDSTEIN, A. I. /Immunobiological displacements in persons who have been in contact with scarlet fever/ 29-32.

SUSLOVA, V. P. /Fibrinolytic properties of scarlet fever streptococci/ 32-5.

LIAMPERT, I. M. /Study of Cantacuzino's phenomenon/ 35.

KOLESNIKOVA, L. I., HOLCHEV, N. V., & PIVOVAROVA, E. A. /A filtered antimeasles serum/ 36-8.

WACKENHUT, A. M., KOZLOVSKAIA, S. L., & LESHCHINSKAIA, E. N. /Cultivation of BCG cultures on the glycocol synthetic medium VKL/ 38-41.

BERNHOF, F. G. /Bacteriological diagnosis of pathogenic intestinal bacteria without use of colored media/ 41-6.

MATZ, L. I. /Solid medium with tetrathionate for culture of pathogenic typhoid, paratyphoid and dysentery bacilli in accelerated diagnosis/ 46-50.

BENDERSKAIA, E. A. /Agglutination and precipitation reaction in diagnosis of bacillary dysentery/ 50.

ELIZAROVSKY, G. I. /Comparative evaluation of media in the examination of horse feces for paratyphoid-abortion bacillus excretion/ 51.

CHISTOVICH, G. N. /Certain dysentery-like microorganisms/ 52.

BABICKAIA, E. M., KRIVOSHEEVA, S. P. /et al./ /Causative agents of dysentery/ 53.

NIKITINA, N. P. /Etiology of acute intestinal diseases/ 53.

BRILINSON, A. V., & BOSKOVA, M. P. /The effect of certain vegetable and animal extracts on the growth of typhoid, paratyphoid and dysentery bacilli/ 54-8.

MARYSHKINA, Z. P. /Viability of dysentery bacilli in the soil under experimental conditions/ 58.

GRENNAUS, G. I., & BERZIN, V. K. /Etiology and diagnosis of paratyphoid toxic infection/ 59.

SHNEERSON, F. S. /Collecting material from cholera patients by means of agar tampons/ 61.
RESINA-LURIE, M. E. /Chapman's method and its clinical significance in the determination of the pathogenicity of staphylococci in purulent wounds/ 61-5.
MORGUNOV, I. N. /Serotherapy with specific antitoxin of experimental staphylococcus infection/ 65.
MITARNOVSKY, V. M. /The mechanism of action of an antivirus in gas gangrene according to Besredka/ 66.
MOROZOV, M. A., & KASATKEVICH, S. S. /Morozov's method for silver staining bacterial flagellae/ 66-71.
KOROBKOVA, E. I. /Chemotherapy of experimental plague/ 71-4.
DAL, M. K., & TOKAREVICH, K. N. /Characteristics of experimental leptospiral jaundice in guinea-pigs/ 75-9.
OGIEVESKAIA, I. B., & TIMKOVSKAIA, U. V. /Ultra-high frequency sterilization of nutritive media/ 80.

J. mikrob., Moskva, 1944, No. 7

GROMASHEVSKY, L. V. /Methods of scientific work in epidemiology at the borders in 1944/ 3-8.
GRENNAUS, G. I. /Methods of compiling anti-epidemiological figures and working out a joint survey/ 8-12.
ELBERT, B. J. /Data on the problem of the soil and water in the epidemiology of typhoid/ 12-7.
WEINDRACH, G. M., ROZANOVA, N. N., & ZARIANOV, K. K. /Seasonality of typhoid and dysentery morbidity in the Kirov region/ 18-24.
GRUENBAUM, F. T. /Food poisoning/ 24-31.
GRENNAUS, G. I. /The role of atypical microbes in the etiology of food poisoning/ 31-6.
RIKMAN, O. A. /Intestinal infections/ 36-40.
NIKOLAEV, I. I. /Epidemiology and prophylaxis of typhus during the present war/ 40-4.
WEINBERG, B. G., & GULAMOVA, V. P. /Efficacy of typhus vaccine prepared from mouse lungs according to Durand-Krontovskaia/ 44-9.
RAVIKOVICH, E. M., STAROVEROVA, A. F. /et al./ /Epidemiological data on the efficacy of typhus vaccine/ 50-4.
_____, _____ /et al./ /Efficacy of typhus vaccine according to clinical data. 54-8.
NIKOLAEV, I. I. /Infectious jaundice/ 58-61.
TOKAREVICH, K. N., & POPOVA, E. M. Epidemiology and etiology of jaundice in 1942-1943/ 61-5.
ALISOVA, L. I. /Cases of jaundice at Chkalov and their nature/ 65.
CHISTOVICH, G. N. /Etiology and epidemiology of epidemic hepatitis/ 66-74.
DODONOVA, O. N. /Epidemiology of measles in wartime/ 74-6.
KOTLIAROVA, E. S. /Epidemiology of brucellosis in the USSR and the tasks of institues of epidemiology and microbiology. 76-9
ERMOLIEVA, Z. V., BALEZINA, T. I., & LEVITOV, M. M. /Penicillin-crustozin/ 79-84.

Med. parazit., Moskva, 1944, 13: No. 3

ROGOZIN, I. I., & IAKUSHEVA, A. I. /Malaria control in 1943 and the plan for 1944/ 3-8.
SERGIEV, P. G. /Measures for malaria contrd in the liberated areas/ 9-13.
LEISERMAN, L. I., & SCHULMAN, E. S. /Malaria in Tadzhik SSR during the present war/ 14-9.
MOSHKOVSKY, S. D. /Quantitative laws in the epidemiology of malaria; the theory of the malaria area (second part)/ 19-42.
NABOKOV, V. A. /Anabasin-sulphate as a repellent for malarial mosquitoes/ 42-50.
SKVORCOV, A. A., & PLOTNIKOV, N. N. /Detection of Opisthorchis felineus (Rivolta, 1884) in molluscs of the Tobolsk area/ 50-3.
ANDREEV, L. A. /Tick-borne relapsing fever in Kazakhastan/ 53-7.
KOZHEVNIKOV, P. V. /Cutaneous leishmaniasis in connection with trauma/ 57-9.
KOLPAKOVA, EKSTROEM/et al./ /Seasonal variations in the number of fleas of wild rodents/ 60-8.
ENIKOLOPOV, S. K. /Biology of Anopheles algeriensis Theo./ 68.
/RESOLUTION of the USSR Public Health on malaria control, Feb. 12-14, 1944/ 70-4.
/INSTRUCTIONS on chemotherapy and prophylaxis of malaria/ 75-93.

6. Biology; Embryology

Biologico, S. Paulo, 1944, 10:

BUENO, P. Tuberculose dos suinos. 145.
GUIDA, V. O., & RODRIGUES, C. A. Importancia das bacterias anaerobias em patologia veterinaria. 129; passim.

LEPAGE, H. S., & FADIGAS JUNIOR, M. A mariposa oriental das frutas, Grapholita molesta /Busck/ 135-40.

9. Cardiovascular System

Mod. Concepts Card. Dis., 1944, 13:

GILBERT, N. C. The influence of extrinsic factors on the coronary system. 1.

Mod. Concepts Card. Dis., 1944, 13:

MONTGOMERY, H. Thrombo-angitis obliterans. 1.

10. Chemistry; Physics

Biochem. J., Lond., 1944, 38:

HESTRIN, S., & AVINERI-SHAPIRO, S. The mechanism of polysaccharide production from sucrose. 2-10.
CROOK, E. M., & MORGAN, E. J. The reduction of dehydroascorbic acid in plant extracts 10-5.
DE LOURENBO, J. A., & JANZ, G. J. Iodometric and colorimetric methods for the estimation of calcium in serum based on the use of an improved permanganate solution. 16-9.

KASSANIS, B., & KLECZKOWSKI, A. The effect of formaldehyde and mercuric chloride on tobacco mosaic virus. 20-4.

HILDITCH, T. P., & MEARA, M. L. Human-milk fat; component fatty acids. 29-34.

HAWKINS, E.G.E., & HUNTER, R. F. The cyclization of vitamin A and allied compounds. 34-7.

REILLY, D., LONG, T., & CURTIN, T. P. The influence of sodium nitrate concentration on the metabolism of Penicillium sclerotiorum van Beyma. 37-9.

DAVIDSON, J. N., & WAYMOUTH, C. Tissue nucleic acids and nucleotides in embryonic and adult tissue. 39-50.

DELORY, G. E., & KING, E. J. The activation of phosphatase. 50-3.

RIMINGTON, C., & ROWLANDS, I. W. Serum gonadotrophin; further purification of the active material. 54-60.

HEATLEY, N. G. A method for the assay of penicillin. 61-5.

GORDON, A. H., MARTIN, A.J.P., & SYNGE, R.L.M. Technicalnotes on the partition chromatography of acetamino-acids with silica gel. 65-8.

STRELITZ, F. Purification of pseudo-cholinesterase from horse serum. 68-8.

BEVERIDGE, J.M.R., & LUCAS, C. C. Analysis of hair keratin; the dicarboxylic and basic amino-acids of human hair. 88-95.

_____, & _____. The analysis of hair keratin; isolation of proline from human hair. 95-7.

MCILWAIN, H. Biochemical characterization of the actions of chemotherapeutic agents; measurement of growth of streptococcal cultures through their gaseous metabolism, and the effects of pantothenate and pantoyltaurine upon the metabolism and growth. 97-105.

WEST, C., & ZILVA, S. S. Synthesis of vitamin C in stored apples. 105-8.

HASLEWOOD, G.A.D. Metabolism of steroids; ketonic acids derived from cholic acid. 108-11.

CHATTAWAY, F. W., HAPPOLD, F. C., & SANDFORD, M. A growth factor for C. diphtheriae present in liver. 111-5.

ROSE, F. L., & BEVAN, H.G.L. A new coupling component and simplified method for the estimation of sulphanilamide drugs. 116.

HALL, T. C., & LEHMANN, H. Experiments on the practicability of increasing calcium absorption with protein derivatives. 117-9.

NEUBERGER, A., & SANGER, F. The metabolism of lysine. 119-25.

_____, & _____. The availability of ε-acetyl-d-lysine and ε-methyl-dl-lysine for growth. 125-9.

Biochem. J., Lond., 1944, 38: Suppl.

SCARBOROUGH, H., & GILCHRIST, E. Observations on the correlation between capillary resistance and ascorbic acid in the plasma. 1.

JAGOBY, F. C., & WOKES, F. Carotene and lycopene in rose hips and other fruits. 1.

BARCROFT, J., MCANALLY, R. A., & PHILLIPSON, A. T. The production of acetic, propionic and butyric acids in the alimentary canal. 2.

_____, _____, & _____. Absorption of acetic, propionic and butyric acids from the alimentary canal. 3.

_____, _____, & _____. The destruction of acetic acid by the beating heart. 4.

WATKINSON, J., DELORY, G. E. /et al./ Plasma acid phosphatase in carcinoma of the prostate and the effect of treatment with stilboestrol. 4.

BACHARACH, A. L., & COATES, M. E. The vitamin P activity of some fruits and fruit products. 5.

BORROMLEY, A. C. Chemical estimation of vitamin B₁ in foodstuffs. 5.

KING, E. J., & MACKELSCHMIDT, G. The mineral content of the lungs of workers from the South Wales coalfield. 6.

HLASCHKO, H. Reaction of anthocyanins with molybdate. 6.

PLIMMER, R.H.A. Van Slyke's copper sulphate method for measuring specific gravities of whole blood, plasma and serum. 7.

KING, E. J., & DELORY, G. E. A simple step photometer for field and emergency use. 7.

_____, GILCHRIST, M., & WHITE, J. C. A case of methaemoglobinaemia. 8.

MCILWAIN, H. Absence of gross displacement of pantothenate and p-aminobenzoate from micro-organisms, by pantoyltaurine and sulphanilamide. 8.

CONSDEN, R., GORDON, A. H., & MARTIN, A.J.P. Partition chromatography of amino-acids. 9.

ELSDEN, S. R., & SYNGE, R.L.M. Starch as a medium for partition chromatography. 9.

DAVIS, J. G., & WARD, S. J. The ultra-rapid examination of milk for chemical and bacteriological quality; (a) single quarter samples at the farm, (b) herd bulk samples on the creamery platform. 9.

ELSON, L. A., & HOCH-LIGETI, C. The inhibition of enzyme systems by metabolic products of carcinogenic compounds; urease and succinoxidase. 10.

KING, E. K., & MORGAN, W.T.J. The isolation of a blood group A substance from pseudomucinous ovarian cyst fluids. 10.

Biochem. Zschr., 1941, 309:

KNOBLOCH, H., & TIETZE, H. Ueber die Bildung reduzierender Zuckercarbonsäuren durch Essigbacterien. 399-414.

Bull. Chem. Res. Inst. Nat. Wu Han Univ., 1942, No. 1.

WOO, P. Omni-range electrical forces and the static nuclei. 1-27.

J. Chin. Chem. Soc., 1941, 8:

LEE, F. H., & TAI, Y. K. Entropy of hydration of gaseous ions. 184-93.

_____. Absolute values of entropies of aqueous ions. 60-4.

J. Chin. Chem. Soc., 1942, 9:

CHANG, C., YEN, C. T., & YOH, I. L. Studies of the fixation of the Chinese Valonia by hide powder; effect of the pH value of tanning liquor on the fixation of the total solubles of Valonia by hide powder. 176-82.

LEE, F. H., & SIE, C. S. Further study on the apparent ionic volume in infinitely dilute solutions. 134-40.

TANG, T. H., & KUO, C. L. Preparation of organic acids by fermentation; lactic, citric and gluconic acids. 112-8.

CHANG, P. C., YEN, C. T., & YOH, I. L. Studies of the fixation of the Chinese Valonia by hide powder; effect of the concentration of tanning liquor on the fixation of the total solubles of Valonia by hide powder. 82-9.
LEE, F. H., & SIE, C. S. Apparent molal heat capacities of salts in infinitely dilute solutions. 54-6.
LEE, F. H. Apparent ionic volume in infinitely dilute solutions. 46-53.
_____ & TAI, Y. K. Heat of hydration of faseous ions. 41-5.

J. Org. Chem., 1944, 9:

HEIM, H. C., & POE, C. F. Preparation of some glycol benzoates. 299-301.
BACHMAN, G. B., & COOPER, D. E. Quinoline derivatives from 2- and 4-chloroquinolines. 302-9.
